Dear Property Owner,

If you recall you were sent a trash survey and the results of that survey indicated that most everyone uses One Star for trash service and those who didn't would be willing to switch companies.

We would like to encourage everyone in the community to use One Star Sanitation as their service provider to collect your trash moving forward. There are many advantages for both the community and property owners. One Star will provide service for the POA at no charge if they are the exclusive provider for The Hills. If we have 1 trash company entering and exiting vs. 3 companies it will greatly reduce the wear and tear on the roads. The cost for trash service for property owners is lower than the cost with other companies at a monthly charge of \$25.00 plus tax. We understand that some of you may have paid your current provider for the entire year. If so please notify us and we can make note of this.

If you use another company please consider switching service now and we can sign a contract with One Star as the exclusive provider and this will benefit us all.

Thank you from your board of directors,

Ken Kearns - President
Charlie Hay - Vice President
Kathy Ritchie - Treasurer
Kathy Laux - Secretary
Allan Sparkman - Director
